

# Internal Controls Policy

## Council Policy

## Renmark Paringa Council

<b>Responsible Officer</b>	Director Corporate and Community Services
<b>Relevant Legislation</b>	Local Government Act 1999 – Sections 125, 126, 129 & 130 Local Government (Financial Management) Regulations 2011, Section 19.
<b>Adopted</b>	November 2019
<b>Reviewed</b>	September 2023
<b>Next Review</b>	September 2024

## Purpose

To outline a policy framework for an effective internal control system which conveys to supervisory staff that they are responsible for ensuring that internal controls are established, documented, maintained and adhered to across the council and to all employees that they are responsible for adhering to those internal controls.

To ensure the propriety of transactions, information integrity, compliance with regulations and achievement of Council objectives through operational efficiency; and

That risks relating to the stewardship of public resources are adequately managed to acceptable and practical levels through effective internal controls.

## Objective

The objectives for this policy are:

- a) Risks relating to the stewardship of public resources are adequately managed through effective internal controls to ensure the likelihood of the residual risk occurring and the impact of the risk are within tolerable limits.
- b) Provide for a framework reference for effective internal control systems which convey to managers that they are responsible for ensuring that internal controls are established, documented, maintained and adhered to across the Council and to all employees that are responsible for adhering to those controls

- c) To ensure the propriety of transactions, information integrity, compliance with regulations and achievement of Council objectives through operational efficiency.

## **Policy**

Effective internal control is a vital tool for the Elected Members and the CEO to ensure that the objectives of the Council are carried out in an efficient, compliant, reliable and transparent manner.

Effective internal controls help provide a reasonable assurance that the financial systems produce reliable information for reporting. The Audit and Risk Committee and external auditors take account of internal control practices when forming their advice and opinions.

Effective and transparent internal control is built on the following key areas:

- integrity and ethics;
- policies and delegated authority;
- levels of responsibilities and authorities;
- audit practices;
- information system access and security;
- management operating style; and
- human resource management and practices.

The Council will establish and maintain an effective internal control framework.

The internal control framework should:

- align to Councils strategic objectives;
- reflect a co-ordinated and systematic approach to risk management;
- be embraced by management and the responsible officers within the organisation;
- be based upon the Better Practice Model – Internal Financial Controls for South Australian Councils;
- ensure compliance with legislation;
- be consistently recorded within a whole-of-organisation framework;
- have an associated plan of action to ensure that the controls are correctly implemented, including policies, procedures, guidelines and training;
- include procedures for reporting immediately any significant control failings or weaknesses that are identified together with details of corrective action being undertaken; and
- be subject to periodic review at a frequency appropriate for each control.

## **Risk Management Approach**

The Council will maintain an internal control framework based upon a proactive risk management culture that emphasises integrity, ethical values and competence. The types of risks identified in the framework will be those which may prevent Council from meeting its objectives and the potential for fraud is explicitly considered in assessing risks.

In establishing and assessing internal control practices, it is necessary to recognise that in practical terms a certain level of risk will always exist within organisations. The purpose of internal control is to provide assurance that the irregularities are prevented, if they occur are able to be detected and corrected internal risks faced by Council to acceptable levels.

It is recognised that all risks cannot be eliminated, however the internal controls applied should reduce the likelihood of risks and/or consequences occurring, to acceptable limits of risk.

## **Roles and Responsibilities**

The Council Elected Member body is responsible for approval of the Internal Control Policy. The Chief Executive Officer is responsible for developing and maintaining an Internal Control Framework, which ensures Council objectives are achieved efficiently and effectively.

The Council Audit and Risk Committee is responsible for review of any proposed changes to this policy and the framework as part of its role to review the effectiveness of the Internal Control system, in accordance with its Terms of Reference.

The Chief Executive Officer and the Mayor must sign the financial statements, which include assurance about Internal Controls, as required by Local Government (Financial Management) Regulations 2011 Part 4 Section 14.

The Directors, Managers and Supervisors are expected to promote a best practice approach in support of effective business practices and properly functioning controls by adopting a risk management approach to identifying and assessing risks and then apply a cost/benefit analysis in the development of internal controls.

Employees must conduct their duties in accordance with Internal Control Policy and associated framework procedures and practices and are expected to undertake training in aspects of control that directly affect their own work procedures and also maintain an awareness of other control practices within the Council.
