From the Chief Executive Officer

I am pleased to present the Renmark Paringa Council Progress Report for Quarter 4, 2025-26.

This past quarter has been marked by significant achievements across our organisation, from strengthening community connections and improving infrastructure to advancing long-term planning and financial sustainability.

Council continued to foster a connected and inclusive community through the successful delivery of Volunteer Month, school holiday activities and events and the adoption of the Riverland's first regional Disability Access and Inclusion Plan 2026-2030.

The completion of a new niche wall at Renmark Cemetery will provide additional memorial options for local families and further supporting community needs.

We also completed the concept design for the Renmark West CWMS Expansion, a key project that will support future growth and service delivery.

Council finalised the sale of the Chaffey Community Centre to Community Bridging Services,

ensuring the continued delivery of essential community programs while supporting the long-term sustainability of the facility.

Renmark also received statewide recognition as a finalist in the 2026 hello SA Top Tourism Town Awards, highlighting the growing profile of our region as a destination of choice.

Significant progress was made across infrastructure projects throughout the region. Construction commenced on the new Bert Dix Park Boat Ramp, bank stabilisation works progressed at Lock 5, airport improvements were completed, and major road rehabilitation projects commenced.

Council successfully secured external funding for several initiatives, including a new dog enrichment enclosure and an education-focused corella management program.

At the same time, a comprehensive Stormwater Management Plan was completed, providing an important framework for future investment and helping to prepare our community for the impacts of climate change and future growth.

Importantly, Council adopted its 2026/27 Annual Business Plan and Budget, setting a clear direction for the year ahead while maintaining a strong focus on responsible financial management. Our advocacy efforts continued to progress, ensuring local priorities remain front of mind with government and funding partners, while a positive ReturnToWorkSA

evaluation recognised the substantial improvements made to workplace health and safety across the organisation.

Council's financial position also continued to strengthen, reflecting disciplined financial management and progress toward long-term sustainability.

Together, these achievements demonstrate Council's ongoing commitment to delivering essential services, investing in community infrastructure, supporting economic growth and building a stronger, more resilient future for the Renmark Paringa.

Tony Siviour

What is the Progress Report?

A Progress Report is a way for us to keep the community updated on how we're going delivering the services and projects we've committed to in the *2025/26 Annual Business Plan*. It's snapshot of what we've achieved so far, what's still in progress, and how all of this is helping us move toward the bigger goals identified in our Strategic Plans.

Community Vision

We strive to protect and enhance our region as it is a unique place, underpinned by a rich heritage and enviable river lifestyle.

We are proud to share and nurture this natural beauty, welcome visitors and drive growth and investment to sustain our vibrant community long into the future.

We lead healthy, active and fulfilling lives, with a commitment to support and respect each other and our environment. Together, we're building a brighter future.

Community Aspirations

Our community vision for Renmark Paringa is to leverage our unique attributes and address our challenges, supported by these four aspirations as identified in our *2024 - 2034 Community Plan*:

Liveable

A safe and welcoming place to live and enjoy a healthy and active lifestyle.

Leadership

A Council that is a trusted partner that delivers what it promises in an efficient and effective way.

Prosperous

A place that attracts, retains and supports talented people, underpinned by diverse regional industry, tourism and access to infrastructure and housing.

Environment

A place that is resilient to the effects of extreme weather, protects its river and flood plains, is green and limits its impact on the natural environment.

Greg Haynes named finalist in 2026 CWMS Excellence Award

Council is proud to congratulate Senior Wastewater Treatment Plant/ CWMS Operator Greg Haynes on being named a finalist in the 2026 CWMS Excellence Award.

With more than a decade of experience in water and wastewater treatment, Greg has played a key role in the operation and optimisation of Council's CWMS network and treatment facilities. His technical expertise and dedication have helped ensure the reliable delivery of essential services, improved system performance and supported the long-term sustainability of Council's water and wastewater infrastructure. Council congratulates Greg on this well-deserved recognition and thanks him for his ongoing commitment to the Renmark Paringa community.

Renmark West CWMS expansion

This quarter saw the concept design for the Renmark West CWMS expansion completed. The project will continue its progress in 2026/27, with construction forecasted for completion in early 2027.

2

high-profile community visits supported

Volunteer Month

During May, to complement National Volunteer Week Council delivered a month-long campaign to highlight and celebrate the significant contributions of volunteers across the Renmark Paringa community. This year, the approach shifted away from the previous format of nominations and awards, and instead provided opportunities for volunteer groups to nominate to be part of a broader campaign to recruit new volunteers.

In total, Council were able to support 16 community groups. An evaluation of the program identified that several groups reported the campaign was able to directly support them in placing new volunteers in required roles.

High profile community visits

Council supported visits from two high profile personalities in May.

Best selling Australian children's author, Mem Fox, visited the Riverland as part of her role as an ambassador for the Premier's Reading Challenge. Council was able to support Mem's visit with a community session for parents and carers on the joy and importance of reading.

2023 Australian of the Year, Taryn Brumfitt, also visited the Riverland to share resources about the importance of positive body image messaging. Council was able to support Taryn's visit with a community session designed for parents, grandparents, and carers to share practical insights and share resources on how to support young people to thrive, build body confidence, and develop the resilience and self-belief they need to navigate today's world.

New niche wall at Renmark Cemetery

Construction of the new niche wall at the Renmark Cemetery has been completed. This addition provides 140 new spaces designed to accommodate a full container of cremated remains, offering a respectful and secure option for families wishing to memorialise loved ones.

Riverland's first Disability Access and Inclusion Plan adopted!

Council adopted the region's first Riverland Disability Access and Inclusion Plan 2026–2030, developed in partnership with the District Council of Loxton Waikerie

and Berri Barmera Council to support a consistent regional approach to accessibility and inclusion.

The plan was informed by broad community consultation with people living with disabilities, carers, service providers, advocacy groups and the wider community, highlighting priorities such as improved physical access, better information access, greater awareness of invisible disabilities, and more inclusive community opportunities.

It focuses on strengthening inclusion, access to services and facilities, employment opportunities, and regional collaboration.

The plan is available in both a full and simplified version on all Council's websites. An Easy Read version of the document is planned to be delivered within the first year of the Plan.

PROGRESS FOR THIS QUARTER

2

community events
delivered

15,776

physical library loans

9,350

library visits

15

school holidays events

Library Services

The Renmark Library's April School Holiday Program once again generated strong community interest, offering an engaging and diverse range of activities focused on creativity, learning, and hands-on fun. A total of 15 events were delivered, attracting 543 children across the program. One of the standout highlights was the highly popular Scavenger Egg Hunt, which drew 224 participants. Library visitation throughout the holiday period was also exceptional, with 2,578 visits recorded over the two-week break, demonstrating the continued value of the Library's holiday programming to the community.

Events

Council delivered two community events this quarter, the April Riverfront Markets and *Machine Mania*.

Approximately 2,000 people attended *Machine Mania* at the Renmark Riverfront, a community event inspired by the popular Touch-a-Truck concept. The event provided families with the

opportunity to explore a wide range of vehicles and machinery in an engaging, hands-on environment. A dedicated Quiet Hour was also incorporated to enhance accessibility and inclusivity, attracting approximately 350 attendees. The strong attendance across both the main event and Quiet Hour highlights the community's enthusiasm for accessible and family-friendly experiences.

The April Riverfront Markets were a great success, attracting approximately 2,500 attendees. The event featured a diverse range of attractions, including Farmer Darcy's Travelling Farm, market stalls, food vendors, giant lawn games, and entertainment from Kooka and Kiwi the Clown. The strong attendance and variety of activities contributed to a vibrant community atmosphere, reinforcing the Riverfront Markets as a popular and well-supported local event.

Chaffey Community Centre sale

Council was pleased to finalise the sale of the Chaffey Community Centre to Community Bridging Services (CBS), achieving a positive outcome for both Council and the broader community. The sale enables Council to realise the benefits of divesting the asset while ensuring the continued provision of the essential programs and services delivered from the Centre.

As an experienced operator with a strong understanding of the facility and its role within the community, CBS is well positioned to manage the Centre into the future. This transition supports the long-term sustainability of these valued services and provides reassurance and continuity for residents who rely on them.

Construction of new telecommunications tower

In June, Amplitel completed construction of a new 30-metre telecommunications tower adjacent to the Cowra Street Materials Depot. The facility is expected to significantly improve voice and data coverage across the surrounding area, reducing network capacity constraints, extending 5G coverage

to identified growth areas within Renmark, and enhancing indoor mobile connectivity at the Renmark Paringa District Hospital.

Following a public consultation period in May 2025, during which no submissions were received, Council entered into a 20-year lease agreement with Amplitel to facilitate the project. The facility is anticipated to be commissioned and brought into service in the coming months.

2026 hello SA Top Tourism Town nomination

Renmark was recognised as one of four finalists in the 2026 hello SA Top Tourism Town Awards, highlighting the town's growing reputation as a premier regional

destination. While Renmark did not secure the overall award, the finalist status is a significant achievement and reflects the substantial effort in preparing a high-quality submission.

The submission showcased Renmark's unique attractions, visitor experiences, community spirit and ongoing investment in tourism, providing valuable exposure for the town and strengthening its profile within South Australia's tourism sector.

powered tools

Stormwater Management Plan

Council has completed a comprehensive Stormwater Management Plan to better understand the capacity, condition and future performance of Renmark's stormwater network and identify priorities for long-term investment. The plan confirms that more frequent and intense rainfall events associated with climate change, combined with an ageing drainage network and future growth, will place increasing pressure on Council infrastructure. Using detailed modelling and risk assessment, the project establishes a strategic framework to guide future stormwater improvements, reduce flood risk and strengthen

community resilience. The next step will involve consultation with key water management stakeholders and authorities to review the plan and incorporate feedback before final submission. Priority actions identified through the plan will then be integrated into Council's Infrastructure and Asset Management Plan and future Stormwater Asset Management Planning processes, providing a basis for long-term capital funding and investment decisions to ensure infrastructure remains fit for future weather conditions and community needs.

Transition to battery powered equipment

Council has continued to progress its transition to battery-powered equipment, with a range of new tools introduced over the past year, including blowers, chainsaws, hedge trimmers and a multi-purpose Kombi tool with hedge trimmer, pole saw and whipper snipper attachments.

As battery technology continues to advance, Council anticipates further opportunities to replace petrol-powered equipment with cleaner and more efficient alternatives, including hand mowers and additional landscaping tools.

PROGRESS FOR THIS QUARTER

80%

of external grants covered Bert Dix Park Boat Ramp upgrade

Bert Dix Park Boat Ramp and Lock 5 moorings update

Construction of the new Bert Dix Park Boat Ramp commenced early in the quarter, representing another significant investment in recreational boating infrastructure across the Renmark Paringa region.

Once completed, the upgraded facility will provide improved river access for residents and visitors and further enhance Bert Dix Park as a key community destination. The project builds on recent boating infrastructure upgrades at Customs House and Lock 6, reinforcing Council's commitment to improving boating access throughout the district.

Unfortunately, high levels of rainfall has impacted the delivery of onsite construction works for this project which has led to it being carried over into 2026/27.

Council acknowledges the support of the South Australian Boating Facilities Advisory Committee (SABFAC), whose funding contribution will cover approximately 80% of the project cost.

Bank stabilisation works at Lock 5

The high levels of rain have also impacted works at Lock 5. Bank stabilisation works have been completed at Mooring Sites 8 -15. Works are on track for completion by end of 2026.

development
applications approved

Dog and Cat Management Board Grant success

Council was successful in securing funding from the Dog and Cat Management Board to construct an Impounded Dog Enrichment Enclosure at Council's animal pound.

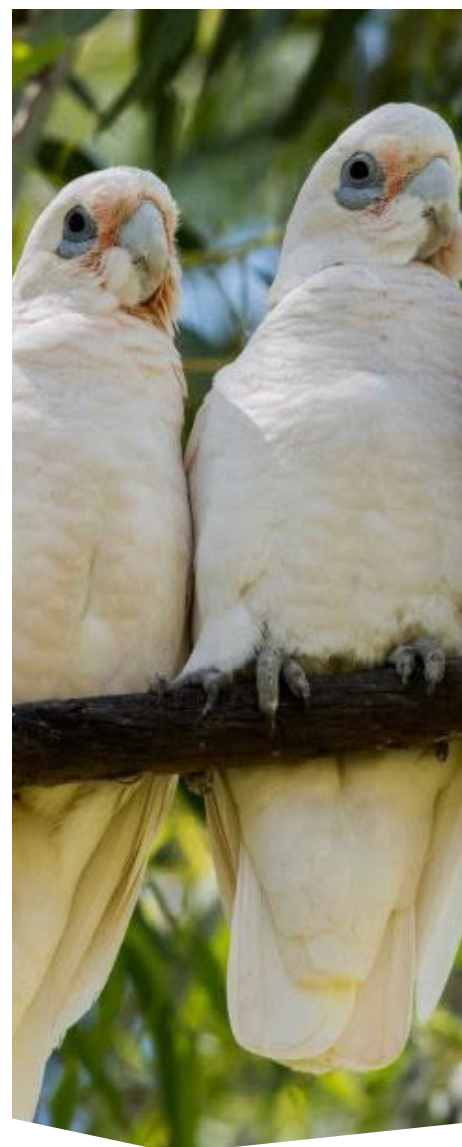

The enclosure will provide a secure outdoor space for exercise, enrichment and socialisation, improving the wellbeing of dogs held in care, particularly those detained for more than 72 hours. The project is expected to reduce stress, support successful rehoming outcomes and strengthen partnerships with animal welfare organisations and adopters. Construction is anticipated to be completed by December 2026.

Little Corella Management and Community Education Grant Success

The Regulatory Services Team has secured grant funding from the Department for Environment and Water to deliver education and community engagement initiatives aligned with the South Australian Little Corella Action Plan.

The project will take an education-focused approach to little corella management, supporting informed community responses through the development of fact sheets, website content, social media messaging and signage. Resources will provide practical information on little corella behaviour, management options and legal requirements, while helping residents, schools and businesses minimise impacts such as noise, fouling and vegetation damage.

The initiative will also support Council officers to provide consistent, evidence-based advice and promote long-term community awareness and behavioural change.

Wentworth Road maintenance agreement

Council has partnered with the Department for Infrastructure and Transport (DIT) to undertake ongoing maintenance of a 43 km section of Wentworth Road, improving road conditions for residents, freight operators, businesses and visitors while providing an additional revenue stream for Council. The partnership has also supported local industry, with contractors including Stoney Pinch Earthmoving and Altitude Earthworks engaged to deliver components of the maintenance program. Works are already underway and have received positive feedback from road users regarding the improved condition of the route.

James Avenue footpath works

Construction of the James Avenue Footpath project is complete, improving safety and connectivity along the Renmark riverfront by linking existing paths between James Avenue and Ninth Street.

The works include a new footpath and pedestrian crossing near the RIT pump station to enhance accessibility and pedestrian safety.

Works at Renmark Airport

Two new split-system air conditioning units have been successfully installed within the Renmark Airport Terminal, significantly improving comfort for visitors and staff. The upgrade improves the usability of the terminal year-round, creating a more comfortable and welcoming environment for all airport users.

Licensed asbestos removal contractors were engaged to remove areas and materials identified as being contaminated with asbestos within the Aerodrome refuelling precinct.

Road maintenance works

Road rehabilitation works on Murtho Road have been completed, with additional rehabilitation works scheduled for this area and other identified locations across the district. Pavement patching is also continuing in response to an increased number of potholes resulting from recent rainfall events.

In addition, the northern shoulder of Cucumunga Street, between Bookmark Avenue and Tarcoola Street, has been restored to a road base surface. The area will

be maintained free of grass to provide a safer and more accessible route for pedestrians and cyclists, encouraging use of the shoulder rather than the roadway.

Road rehabilitation

Road rehabilitation works on sections of Industry Road, Nineteenth Street, Twentieth Street, and Para Street surrounding Renmark Square have commenced.

The project will be delivered in two stages:

- Stage 1: Industry Road and Nineteenth Street
- Stage 2: Para Street and Twentieth Street

Community communications were issued ahead of the works to ensure residents and road users were informed of the project timeline and any potential disruptions.

Council acknowledges that this is a very impactful project for our community and we will continue to be proactive with communications about the works.

2026/27 Annual Business Plan adopted

Council adopted its 2026/27 Annual Business Plan and Budget in June, following community consultation and consideration of feedback received throughout the engagement period.

The Annual Business Plan sets out Council's priorities, services and key initiatives for the coming year, while continuing to balance investment in community infrastructure and services with Council's commitment to long-term financial sustainability.

Development of the budget also incorporated outcomes from Council's Rating Review, which considered how the rating system could be structured to provide a fair and sustainable approach to funding Council services into the future.

Strengthening Council's advocacy

Council continued to progress its 2025–2027 Advocacy Plan, providing a more coordinated approach to advocating for the projects, infrastructure and policy outcomes important to the Renmark Paringa community.

Throughout the quarter, Council continued to advocate in line with the priorities identified in the Plan, helping ensure local priorities remain visible in discussions with State and Federal Governments and other key stakeholders.

The Plan provides a clear platform for Council to build partnerships, pursue funding opportunities and advocate for investment that supports the long-term prosperity of the district.

Continued improvement in Council's financial position

Council received more than \$3 million in June through the Australian Government's prepayment of 80% of its annual Federal Financial Assistance Grant entitlement.

The timing of this payment, together with delays in the delivery of some capital projects, resulted in Council temporarily moving into a cash surplus position at the end of the quarter.

While this position reflects the timing of grant funding and expenditure, it represents a significant improvement from

Council's peak debt position of approximately \$11 million 18 months earlier and reflects the continued focus on strengthening Council's long-term financial sustainability.

Positive ReturnToWorkSA evaluation

Council's recent ReturnToWorkSA evaluation recognised the significant work undertaken to strengthen workplace health and safety practices across the organisation.

The evaluation provided positive feedback on Council's approach, including the professionalism of staff, workplace culture and improvements achieved over the past two years.

The result reflects Council's continued focus on providing a safe and supportive workplace and embedding strong work health and safety practices across the organisation.
