

Upcoming River Murray lowering

Creating a healthy, working River Murray

Plans are underway to lower River Murray water levels in the weir pools upstream of Lock 6, Lock 5 and Lock 2 during winter 2018 to improve the health of riverbanks and wetlands.

Please contact Department for Environment and Water, Engagement Officer Jodie Woof on (08) 8595 2141 or email jodie.woof@sa.gov.au

For more detailed [information](#) on timing of the proposed lowering please go to the [River Murray lowering fact sheet](#). Further information can be found on the Natural Resources SA Murray-Darling Basin [website](#)
